

Aquatic Invasive Species Boat Inspection Report (AISBIR)

Per Watercraft Inspection Protocols Recommended by "Western Regional Panel on Aquatic Invasive Species"

Date: **Time:** **Location:** **Watercraft Inspected by:**

Vessel Type: **Make/Model:** **Owner:**

Size: **Engine Type:** Inboard Stern (I/O) Outboard Other **Address:**

State Registration # **City:** **State/Province:**

or USCG Doc#/Vessel Name **Zip:** **Phone(s):**

Commercial Transport Company/Name of Person Transporting Vessel & Contact #:

Date Removed from Water: **How long vessel was in water:** **Lake or Water body:**

Weather Conditions Since Removed from Water (Check all that apply): Wet Moist Humid Dry Hot Cold

Final or Ultimate Launch Location/Destination (Lake name & State):

Destination Jurisdiction(s), if known: **Date Notified:**

How long will boat stay out of water (Desiccation Period): **Anticipated Travel Route (States; SR; Hwy; etc.):**

Anticipated Travel Date: **Destination ETA Date:**

CLOSE INSPECTION of VESSEL: (Before Decontamination)

IDENTIFIED MUSSEL LOCATIONS	Visible AIS or Mussels	Visible Vegetation/Algae	Comments
Hull, Engine(s), Propeller Shaft, Cavitation Plates, Transom	<input type="checkbox"/>	<input type="checkbox"/>	
Trim Tabs, Pitot Tubes, Transducers, Rudders, etc.	<input type="checkbox"/>	<input type="checkbox"/>	
Generator/AC (sea strainers)	<input type="checkbox"/>	<input type="checkbox"/>	
Bilge, Through Hull Fittings(s)	<input type="checkbox"/>	<input type="checkbox"/>	
Bait and/Livewells	<input type="checkbox"/>	<input type="checkbox"/>	
Anchor, Rope/Chain and Locker	<input type="checkbox"/>	<input type="checkbox"/>	
Trailer	<input type="checkbox"/>	<input type="checkbox"/>	

Explain Decontamination Plan: **Location:** **By Whom:**

How/What was performed:

Decontamination issues? NO YES (Fill out Page 2) **Seal Applied:** YES NO **Seal Number:**

I affirm that the above information is true and complete. I understand that this fully completed inspection form does not certify that the watercraft listed herein has been fully decontaminated; only that it was self-inspected by the owner/transporter for presence/absence of visible aquatic invasive species (AIS), including invasive mussels (DO 1). I understand the vessel may not be transported from the AIS listed water vicinity (DO 2) or other location as authorized by the Department until such time as vessel has been properly cleaned, drained and dried for all AIS, per current AGFD Director's Orders (DO 3). I further understand that it is unlawful to transport Arizona listed AIS (e.g., quagga mussels) under A.R.S §17-309 and §17-255.02, and Arizona Administrative Code Rules R12-4-406 and R12-4-1102.

Signed: **Date:**

Printed Name: **Email:**

Legal Standing in this Matter: Boat Owner Transporter Other

REQUIRED BEFORE TRANSPORT to another water

SUBMIT this completed form to AGFD by: **email:** AIScomments@azgfd.gov or **fax:** [623-236-7265](tel:623-236-7265)

Comments/notes:

Long Term-Moored Boat Decontamination Protocols:

The following protocols shall be taken for any watercraft, vehicles, conveyances, or other equipment that have been in or on an AIS listed water for *more than 5 days* and prior to transport from that AIS listed water (unless otherwise authorized by the State):

- Step 1: **Clean/Remove** any clinging material such as plants, algae, animals, and mud from anchor, boat, motor, trailer, and all other equipment.
- Step 2: **Remove all drainage plug(s)** (when so equipped) and **drain the water** from the bilge, live-well, and any other compartments that may hold water. Drain water from engine, engine compartments, and engine cooling systems.
- Step 3: **Remove all attached invasive species** (e.g., adult quagga mussels, New Zealand mudsnails) from boat surfaces, motors, impellers, outdrives, rudders, anchor(s), and through hull fittings.
- Step 4: **Dry** completely, keep the watercraft, vehicles, conveyances, or other equipment out of water and completely dry, including bilge, through hull fittings and engine for a minimum of: **eighteen (18) consecutive days during the months of November through April**, and **seven (7) consecutive days during the months of May through October**.
- Step 5: Where watercraft decontamination facilities exist (private or government), **flush the engine, cooling systems, and any other through hull fittings for ten to thirty seconds with hot water** exiting those areas at 140°F to kill any hidden invasive species (e.g., adult quagga mussels, New Zealand mudsnails).
- Step 6: PRIOR TO TRANSPORT of watercraft to any other Arizona waters or out of state, the owner, operator, and/or transporter **SHALL: Complete and sign an Aquatic Invasive Species Boat Inspection Report - AISBIR** (AGFD Form 2137); and **Fax or email the completed form to the Arizona Game and Fish Department's Aquatic Invasive Program** at (623) 236-7265 or AIScomments@azgfd.gov. Form can be downloaded at www.azgfd.gov/ais.
