

Arizona Game and Fish Department Partnership Waters Program

Grapevine Creek

Zane Grey Chapter of Trout Unlimited has adopted Grapevine Creek as a Partnership Water. Grapevine Creek is a Gila Trout stream located just southeast of Prescott, Arizona in the Bradshaw Mountains. The stream was initially stocked in 2009, and has been stocked on several other occasions from 2012–2014. During each of the stockings, members of ZGTU have helped transport fish from the trailhead to the stream, packing fish in buckets over a mile of rough terrain. So far it looks like their efforts have paid off, as recruitment of Gila Trout into the population has been noted. Fisheries biologists with Arizona Game and Fish Department will be surveying the population in 2015 to evaluate the stability of Gila Trout in the stream and will make a recommendation on how to proceed with management of this unique stream.
