<b>Licenses available at all license dealers, Department offices and online</b>			
<i>More information about the new licenses can be found under Commission Rules R12-4-207, R12-4-209 and R12-4-210.</i>			
<i>All fishing and combo hunt/fish licenses listed are valid for the take of all aquatic wildlife, which includes legal fish species, crayfish, frogs, waterdogs and softshell turtles.</i>			
<b>LICENSES</b>	<b>PRIVILEGES</b>	<b>RESIDENT</b>	<b>NON-RESIDENT</b>
General Fishing <sup>1,2,3</sup>	Allows the take of all fish species statewide, including at Community Fishing waters.	\$37	\$55
Combination Hunt and Fish <sup>1,2,3</sup>	Allows take of all fish species statewide (including at Community Fishing waters), small game, fur-bearing animals, predatory animals, nongame animals, and upland game birds.	\$57	\$160
Youth Combination Hunt and Fish <sup>1,2,3</sup> (ages 10–17)	Allows take of all fish species statewide (including at Community Fishing waters), small game, fur-bearing animals, predatory animals, nongame animals, migratory birds and upland game birds.	\$5	\$5
Short-term Combination Hunt and Fish <sup>2,3,4</sup>	Allows take of all fish species statewide (including at Community Fishing waters), small game, fur-bearing animals, predatory animals, nongame animals, and upland game birds.	\$15/day	\$20/day
Community Fishing <sup>1,2</sup>	Allows take of all fish species at Community Fishing waters	\$24	\$24

## Notes:

- Licenses are valid one year from date of purchase.
- All licenses that allow fishing are valid for the take of trout and for simultaneous fishing with two poles or lines.
- These licenses also include privileges that allow fishing from the shore or from a boat on any portion of the Colorado River and impounded waters (e.g., Lake Mead, Lake Mohave, Lake Havasu) that form mutual boundaries between Arizona and California, or Nevada. In other words, privileges granted by the old (pre-2014) Colorado River Stamps for California and for Nevada are now included.
- A Short-term Combo license may be purchased for any day. Purchaser selects date(s) of validity at time of purchase. If purchased for multiple days, the days need not be consecutive.

# License Information

## License Requirements

- A valid fishing or combination license is required for resident and non-resident anglers 10 years of age or older fishing any public accessible water in Arizona.
- Youth under the age of 10 and blind residents do not need to purchase a state fishing license to fish in Arizona.
- Licenses are valid one year from date of purchase. No license is transferable or refundable.
- All required licenses must be in possession while engaging in fishing.
- A member or spouse of a member of the armed forces of the United States who is on active duty and stationed in this state for either permanent or temporary duty, or is a member or spouse of a member of the armed forces of the United States on active duty stationed in another state or country but who lists this state as their home of record at the time of applying for a license, permit, tag, or stamp, may purchase a resident license.
- A valid fishing or combination license is required for take of frogs, waterdogs, crayfish and softshell turtles. See Commission Orders 41 (Amphibians), 42 (Crustaceans and Mollusks) and 43 (Reptiles)

on open and closed areas, methods of take, seasons, and bag and possession limits. See page 48.

## Arizona Fishing Licenses Are Not Required When

- Fishing any public water on free fishing day, which usually takes place on the first Saturday of National Fishing and Boating week. The next two year's dates for free fishing day are: June 3, 2017 and June 2, 2018.
- Registered and participating in a Department sponsored fishing clinic.
- Fishing private waters, tanks, or ponds with permission of the property owner. (see R12-4-311)

## Where to Buy Licenses and Stamps

- 250 license dealers statewide, including many local sporting goods stores, bait and tackle shops, major retailers, and convenience stores.
- Arizona Game and Fish Department offices.
- Online at [www.azgfd.gov](http://www.azgfd.gov), immediate print out of license.

## Lifetime Licenses

Lifetime license options are available only to Arizona residents and must be purchased at Game

and Fish offices. Fee schedules vary by license type and age. For more information, visit [www.azgfd.gov](http://www.azgfd.gov) and type "lifetime license" in the search box. (Note: Lifetime licenses purchased prior to 2014 will now include the expanded privileges of their respective counterpart.)

## Complimentary Licenses

Must meet criteria below to qualify for free license. These licenses include the same privileges as the Combination Hunt and Fish. (A hard-plastic permanent card may be purchased for \$4. Cards are mailed within 30 days of purchase.)

- PIONEER** Person must be 70 years of age or older who has been a domiciled Arizona resident for 25 or more consecutive years immediately preceding application for the license.
- DISABLED VETERAN** A veteran of the armed forces of the United States who has been a domiciled Arizona resident for one year or more immediately preceding application for the license and who is receiving compensation from the United States government for permanent service connected disabilities rated as 100 percent disabling.

## Regulation Changes

**Note:** All regulation changes take effect Jan. 1, 2017. Check General and Special regulation sections for changes highlighted as "NEW" or as "REVISED."

FISHERIES MANAGEMENT DECEMBER 6, 2016

### Top 5 Arizona fishing holes for this winter

In Arizona, winter doesn't have to mean sending boats and rods and reels into hibernation. While outdoor recreation opportunities across many U.S. states shut down during the season of freeze, Arizona rolls on with trout stockings and water

## How To Use This Booklet

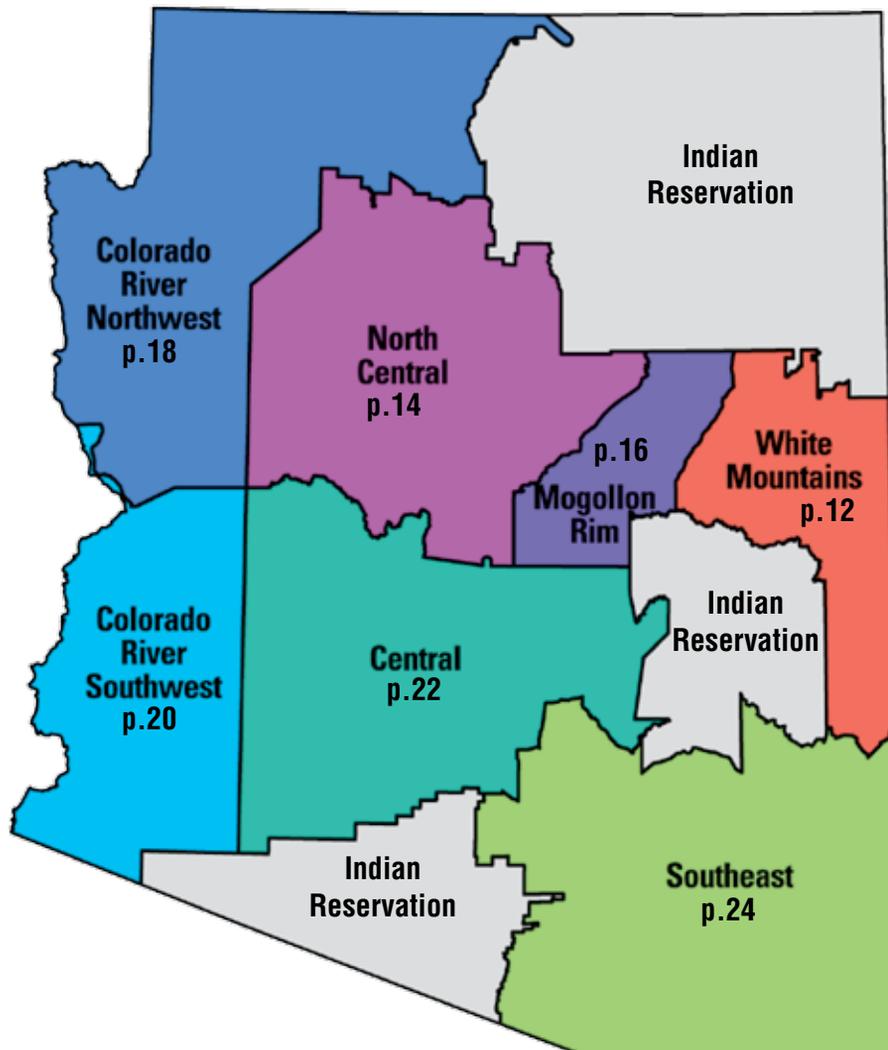

This booklet contains the information you need to legally fish in Arizona. Please consult regulations carefully before fishing. Regulations differ on many bodies of water, so be sure to follow the steps below before you go fishing:

1. Make sure that you have read and are familiar with the information on **General Statewide Regulations** (pages 6–8) concerning the requirements for licenses, stamps, daily bag and possession limits, gear and bait restrictions, harvest methods and common violations.
2. Review the **General Sport Fish Regulations** (page 6) for information on daily bag and possession limits for each species that applies to all fishing waters statewide.
3. Consult the statewide map, below, to find your public fishing area

of interest. Note: for information about **Community Fishing Program** waters pick up the 2017 booklet (and 2018 next year).

4. Locate your fishing area of interest in the **Special Regulations – Fish: Commission Order 40** (pages 12–25) or **Special Regulations by Species** (pages 26–31). Now look to see if the body of water you will be fishing is listed, then note any **Special Regulations** that apply to any fish species such as daily bag limits, length limits, seasons, method of take, bait and hook restrictions, closed areas, or other restrictions. You can also refer to the Special Regulation Waters Index on page 61.
5. If specific references to a body of water, fish species, daily bag limits, length limits, seasons, method of take, or other restrictions are not made in the **Special Regulations**, then **General Statewide Regulations** and **General Sport Fishing Seasons** apply.

**It is the angler's responsibility to know what regulations apply to the body of water they are fishing. New or revised regulations for 2017 are summarized on page 4.**

# General Statewide Fishing Regulations

**Open Statewide, Jan. 1, 2017, through Dec. 31, 2018**

Before you fish any body of water, be certain to review the *General Statewide Regulations* and the *Special Regulations* for the area you intend to fish. **Anglers are responsible for knowing what regulations apply to the body of water they are fishing.** See [www.azgfd.gov](http://www.azgfd.gov) for up-to-date information including any changes.

## DAILY BAG LIMITS

The following are the legal fish and general daily bag limits that apply to all fishing waters statewide. **These regulations apply statewide unless site specific Special Regulations (pages 12–25) apply to that body of water.** Statewide includes all state and federal refuges, parks and monuments; *open areas do not include any area closed to hunting, fishing, or trapping under A.R.S. sections 17-303 and 17-304 or Commission rules R12-4-321, R12-4-801, R12-4-802, and R12-4-803.*

LEGAL FISH	DAILY BAG LIMITS
<b>Trout</b> (includes rainbow, cutthroat, brown, brook, tiger and Apache trout; grayling)	<b>6</b> Any combination
<b>Bass</b> (including largemouth and smallmouth)	<b>6</b> Any combination
<b>Striped Bass</b>	<b>10</b>
<b>Walleye</b>	<b>6</b>
<b>Northern Pike</b>	<b>Unlimited</b> Immediate kill or release
<b>Catfish</b> (including channel and flathead)	<b>10</b> Any combination
<b>Crappie</b> (white and black)	<b>Unlimited</b>
<b>White Amur</b> (grass carp) minimum size 30 inches	<b>1</b>
<b>Roundtail Chub</b>	<b>Catch and release only</b>
<b>Sunfishes</b> (includes bluegill, redear sunfish, green sunfish and hybrid sunfish)	<b>Unlimited</b>
<b>All Other Species (except protected native fish):</b> including, but not limited to, white bass, yellow bass, carp, suckers, buffalofish, bullhead, yellow perch and tilapia	<b>Unlimited</b>

## STATEWIDE POSSESSION LIMITS

Statewide possession limits are twice (2x) the daily bag limit for each species, unless a different possession limit is specified by water. "Possession limit" means the maximum limit, in number or amount of fish, which may be possessed at one time by any one person.

## PROTECTED NATIVE FISH

The following native fish are protected statewide and may not be angled for, taken, possessed, pursued or captured: beautiful shiner, bluehead sucker, bonytail chub, Colorado pikeminnow, desert pupfish, flannelmouth sucker, Gila topminnow, Gila trout (except Frye Mesa Reservoir, Goldwater Lake and West Fork of Oak Creek), humpback chub, Little Colorado sucker, Little Colorado spinedace,

loach minnow, Mexican stoneroller, Quitobaquito pupfish, razorback sucker, Sonora chub, spikedace, Virgin spinedace, Virgin roundtail chub, woundfin, Yaqui catfish, Yaqui chub, Yaqui topminnow, and Zuni bluehead sucker.

*If any of these protected native fish are incidentally caught, they must be immediately released unharmed. See page 33.*

## SPECIAL LICENSES AND STAMPS

As of 2014, the following stamps are no longer available: trout stamp, two-pole stamp, Colorado River stamp – California, and Colorado River stamp – Nevada. The privileges of all of these stamps are now bundled together and included in the General Fishing license, Youth Combo Hunt/Fish license, Combo Hunt/Fish license, and Short-term (one day) Combo Hunt/Fish license. The two-pole stamp privilege is also included in the Community Fishing license.

### Colorado River Special Use Privileges

Privileges of the old Colorado River Stamp – California, and Colorado River Stamp –

Nevada are now included in all General Fishing and Combo Hunt/Fish (youth, adult and short-term) licenses. These privileges allow anglers to fish from a boat on any waters that form the mutual boundaries between Arizona and California, or Nevada; or when fishing from the California, or Nevada, shorelines of these waters. In addition to large stretches of the Colorado River, these fishing privileges include impoundments (e.g., Lake Mead, Lake Mohave, Lake Havasu), and associated backwaters (e.g., Martinez Lake, Mitty Lake).

**Utah Lake Powell Stamp** A Utah Lake Powell stamp validates an Arizona resident fishing or

combo hunt/fish licensee to fish in the Utah portions of Lake Powell. The \$8 Utah Lake Powell stamp is available only from Utah license dealers. Note: Arizona no longer offers or requires the \$3 AZ Lake Powell stamp for Utah licensed anglers fishing the Arizona portion of Lake Powell.

**Lost Your License?** If you lose or damage your license, you can get a replacement at any license dealer, Department office or online. You will be required to complete an “Affidavit for Duplicate License” form and pay a \$4 replacement fee. You will be issued a duplicate license of the same type.

## STATEWIDE FISHING REGULATIONS

*This synopsis of fishing regulations is prepared for convenience only. The regulations are valid for 2017 and 2018. For specific laws and regulations relating to fishing, see Arizona Revised Statute, Title 17 Laws, and Arizona Game and Fish Commission Rules, which can be found at [www.azgfd.gov](http://www.azgfd.gov).*

### Hook and Line Methods

- All new fishing and combo licenses allow the angler to fish with two poles or lines simultaneously. In no case are more than two lines allowed to be used at the same time.
- “Angling” means the taking of fish by one line and not to exceed two hooks, by one line and one artificial lure, which may have attached more than one hook, or by one line and not to exceed two artificial flies or lures.
- Fishing lines must be constantly attended and in immediate control.
- The hook, fly or lure must be used in such a manner that the fish voluntarily attempts to take it in its mouth.
- For artificial fly and lure waters, check the *Special Regulations* to determine if hooks must also be single barbless hook only.
- A single barbless hook is a fish hook with a single point, manufactured without barbs on or which barbs have been completely closed or removed. This does not include a treble hook. Regulations limiting tackle to single barbless hooks do not eliminate the angler’s option for simultaneous fishing as defined. Anglers may use a single line with no more than two single hooks, as with a primary hook and a dropper hook or fly.

### Other Fishing Methods

- Bow and arrow, crossbow, snare, gig, spear or spear gun, or snagging are valid methods for taking carp, buffalofish, mullet, tilapia, goldfish, and shad statewide unless a closure or Special Regulation restricts it.
- Bow and arrow fishing for catfish (5 catfish daily bag limit, any combination) is valid at Apache Lake, Canyon Lake and Saguaro Lake.
- Spear and spear gun fishing for striped bass is valid at Lake Powell, Lake Mead, Lake Mohave (between Hoover Dam and Cottonwood Landing) and Lake Pleasant. Daily bag limits vary between locations. See *Special Regulations* for more details.
- See R12-4-313D for other legal methods of taking aquatic wildlife (bow and arrow, spear or spear gun, snagging, nets, traps, etc.) for specific fish species.

### Capturing Baitfish and Crayfish for Bait

- Live baitfish may be used only in areas approved for certain species (see page 10-11).
- Live bait may be taken by minnow trap, dip net, cast net, pole and line, handline, crayfish net or seine.
- Cast nets shall not exceed a 4-foot radius (or an 8-foot diameter).
- Seine nets shall not exceed 10 feet in length and 4 feet in width.
- Landing nets or dip nets may be used for the capture of legal baitfish or crayfish or only to land a legally hooked fish.
- Any unattended traps or devices used to catch or hold aquatic wildlife or fish must

have attached water resistant identification legibly bearing the name, address, and fishing license number of the person using the device.

- All aquatic wildlife taken incidentally while capturing live bait with nets or traps must be returned immediately and unharmed to the water after being caught.
- All live legal baitfish and live crayfish caught must be for personal use only and are not to be sold or used for commercial purposes.
- Live crayfish may only be used as bait on the same body of water where they were captured.

### Daily Bag and Possession Limit

- The daily bag limit is the maximum number of fish that may be legally caught and reduced to possession in one day. Once you catch a fish and do not release it, it now counts toward your daily bag limit. This includes any fish you catch and give away to someone else. Daily bag limits are for 24-hour periods (midnight to midnight).
- Possession limits are twice the daily bag limits unless otherwise noted (including waters listed under the *Special Regulations*).
- No person shall have in their possession (in the field, in camp, in transit, or at permanent residence) more than two daily bag limits of any fish species. Fish are in an angler’s possession whether on hand, in cold storage, in transport, at home, or elsewhere under their ownership.
- An angler may take daily bag limits of several types of fish per day. Daily bag limits apply to all Arizona waters fished that

## STATEWIDE FISHING REGULATIONS (continued)

day. An angler who has taken and kept a bag limit of fish may not continue to fish for the same species that day. Additionally, an angler who has taken and kept a possession limit of fish (twice the daily bag limit) may not continue to fish on subsequent days, unless the angler has first consumed or given away all or a portion of the possession limit.

- Where only catch-and-release fishing is allowed, fish must immediately be returned unharmed to the water after being caught.
- Unlicensed children under the age of 10 and unlicensed blind residents may take their own separate daily bag limits as established for each species. They also are entitled to the use of two poles.

### Closures to Fishing

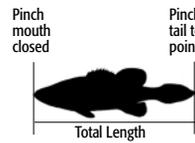

Sensitive areas may be permanently closed to fishing. Some areas (streams) being actively restored for native trout recovery efforts may be temporarily closed to fishing.

### Length Limits

Most fishing waters in Arizona do not have length limits. Check the *Special Regulation* waters (including *Designated Community Fishing Program* waters) to determine if length limits apply to species found in the water you wish to fish. A minimum length means that a fish shorter than a designated length must be returned to the water unharmed immediately after being caught.

### How to Measure the Length of a Fish

1. Total length is the standard.
2. Place the fish flat on its side with the jaw closed.
3. Squeeze the tail fin lobes together to produce the maximum total length.
4. Measure in a straight line from the tip of the snout to the extreme tip of the tail.

5. Where length limits apply, you must release unharmed all fish not measuring within the legal length limit.

### Transport and Storage of Fish

- Anglers may transport up to a possession limit of any fish species.
- It is illegal to transport live fish, including in live wells or other containers. All fish must be killed or released before transportation from the body of water. This does not apply to some live baitfish that are transported from licensed bait dealers. See page 10 for *Live Baitfish – Legal Species, Legal Areas and Regulations*.
- Fish must be transported in a way that they can be counted and species of fish can be identified. All fish must have a piece of skin attached to the carcass or fillets so species can be determined. If minimum length limits apply to the species, the head, tail and skin must be intact so fish length and species can be determined.

## LICENSE REVOCATION AND CIVIL LIABILITY

### License Revocation

You can have your fishing, hunting and trapping license privileges revoked by the Commission for up to five years or more for a conviction of:

- unlawful taking or possession of wildlife (including fish)
- careless use of firearms resulting in human injury or death
- destroying or injuring livestock
- acts of vandalism or littering while hunting or fishing
- unlawful entry into a closed area for purposes of taking wildlife

- unlawful posting of state or federal lands
- license fraud

Such revocations may be recognized by other states that are members of the Interstate Wildlife Violator Compact.

You may also be civilly liable for the loss of wildlife to the state (see below). (A.R.S. 17-340)

### Civil Liability

Under state law (A.R.S. 17-314) anyone who is found to have unlawfully wounded or killed, or unlawfully possessed any of the following wildlife may be subject to civil action by the Arizona Game and Fish Commission. The civil damages may reach as much as \$8,000 per incident. (A.R.S. 17-314)

[www.azgfd.gov/thief](http://www.azgfd.gov/thief)

## COMMON VIOLATIONS

### Fish or Take Aquatic Wildlife Without a License or With the Wrong License

In order to fish or take any aquatic wildlife in Arizona, you must have a valid fishing license, as applicable, in your possession if you are 10 years of age or older. You should check

your license every time that you go fishing. A Community fishing license is not valid at state waters. Community Fishing Program guidebooks are available at all Game and Fish offices, license dealers or online at [www.azgfd.gov](http://www.azgfd.gov). (A.R.S. 17-331)

### Fishing with an Unattended Line

Anytime you are fishing your line must be constantly attended and within your immediate control. Before you leave the area, even for a short while, your line must be reeled in and removed from the water. (A.R.S. 17-301C)

## COMMON VIOLATIONS *(continued)*

### Exceed Daily Bag and/or Possession Limit

Fish may only be taken as prescribed by Commission Order for daily bag and/or possession limit. Please consult Commission Orders for specifics. After you have caught and kept your daily bag limit, it is illegal to continue to:

- Fish for that same species of fish and practice catch-and-release;
- Fish for that same species of fish with the intent of replacing any fish in your bag with a “better fish” – this is also known as culling;
- Fish for that same species of fish with the intent of “helping” another angler get his/her daily bag limit; or
- Fish for a species of fish if you already have the possession limit (twice the daily bag limit) for that species (e.g., in an ice chest at camp, or at home in your freezer). (A.R.S. 17-309A14 and 15)

### Possess Unlawfully Taken Aquatic Wildlife

Any aquatic wildlife that is unlawfully taken may not be legally possessed. Whether or not you were involved in the illegal taking of wildlife or fish, you cannot legally possess such parts thereof. (A.R.S. 17-309A16)

### Obtain License or Permit by Fraud

Only persons who have been a domiciled resident (A.R.S. 17-101A17) of Arizona for the six months immediately preceding the date of application, or members or spouse of a member of the armed forces of the United States who are on active duty and stationed in this state for either permanent or temporary duty may

obtain resident fishing licenses and permits. If the residency of the applicant is in question, the following factors will be considered: Does not claim residency for any purpose in any other state or jurisdiction; has been issued an Arizona driver’s license or an Arizona commercial driver’s license; is employed full-time in Arizona; files federal and/or state income taxes as an Arizona resident; votes in Arizona; is enrolled in, or has minor children enrolled in an Arizona public school without payment of non-resident tuition.

### Unlawful Possession, Transportation or Release of Live Fish

Except for designated baitfish, it is illegal for a person to transport live fish away from the waters where caught. It is also illegal to release live fish into a body of water if they did not come from that body of water or without a proper stocking permit. (A.R.S. 17-306 and 17-309A 1, R12-4-315 and R12-4-316)

### Littering While Taking Aquatic Wildlife

All anglers are responsible for cleaning up after themselves. All camp and shoreline areas should be left clean. Bait containers, wrappers, hooks, line and associated debris constitute litter and should be picked up, packed out, and properly disposed of. Also, all anglers are responsible for the proper care and disposal of their fish carcasses. Shorelines and waterways must be kept as clean as they were found. (A.R.S. 17-309A9)

### Unlawful Possession or Transportation of Live Crayfish

Except for Yuma County and a portion of La

Paz County or under a live wildlife license authority, it is unlawful for a person to import, transport or possess live crayfish other than on or at the body of water where caught. (A.R.S. 17-309A1, R12-4-316)

### Other Violations

- Refuse to produce a license or fish for inspection upon request of an enforcement officer.
- Snag or attempt to snag fish except as allowed by R12-4-313.
- Attempt to take fish by hand, with or without a hook.
- Use a landing net to capture fish, except to land a legally-hooked fish. Dip or seine nets are only legal for the capture of baitfish.
- Waste game fish by intentionally leaving or abandoning any fillets or commonly edible portion of any fish.
- Offer any recreationally caught fish or aquatic wildlife for sale or barter, except as authorized by R12-4-305.P.
- Use electrical devices, explosives, firearms, drugs, chemicals or poison that may kill or injure fish and aquatic wildlife.
- Use or possess live bait in areas or on waters where fishing is restricted to the use of artificial flies and lures only, or where the use of live baitfish is restricted. (page 10-11).

***It is every angler’s responsibility to protect our fishing heritage. You can help ensure responsible and ethical fishing by reporting violations immediately to our Operation Game Thief hotline 1-800-352-0700.***

## Illegal Fish Stocking – It’s Stealing Your Angling Future!

It is illegal to stock fish or aquatic wildlife including crayfish, frogs, waterdogs and turtles. Illegal fish stocking, and everything else moved along with them, plants, mussels, viruses, harmful algae, etc., threaten the quality of our fishing waters.

These introductions jeopardize the pro-

ductivity and possibly the existence of your fisheries – in effect stealing your future!

If you observe or know of someone stocking Arizona waters, report it to **Operation Game Thief** at 1 (800) 352-0700. Information leading to an arrest may be rewarded up to \$1,000. Anyone found guilty of illegally stock-

ing fish or aquatic wildlife may be subject to revocation of hunting and fishing privileges and civil assessments to remedy the impacts of their illegal acts – possibly costing hundreds of thousands of dollars.

# Live Baitfish – Legal Species, Legal Areas and Regulations

Live baitfish that are legal for use in Arizona include only those species identified on these two pages. No other fish species may be used as live bait.

Live baitfish may be obtained and used only in the **legal areas** identified below.

No live baitfish may be used or possessed while on any waters in Coconino, Apache, Navajo, Pima and Cochise counties. All other counties have specific baitfish regulations by body of water or area.

Please dispose of all unwanted baitfish by burying them on land far from the water.

## It is illegal

- To release live baitfish or other live fish into any Arizona waters.
- To use or possess any restricted live baitfish while fishing waters prohibiting use of that baitfish.
- To sell live baitfish (or waterdogs) without a Live Baitfish Dealers License.
- To keep or harm any game fish or aquatic wildlife incidentally taken while capturing live baitfish with seines, dip nets, traps or cast nets.

## Legal Areas Allowing the Use of Live Baitfish

Arizona Live Baitfish License Dealers may offer for sale any of the following: fathead minnows (most common), threadfin shad, mosquitofish, golden shiner and goldfish. Any legal baitfish obtained from a licensed baitfish dealer may be transported for use only to the following legal areas.

These five baitfish species may also be **collected and used alive onsite only** in the identified legal areas. **It is illegal to transport any of these live baitfish from these waters.**

### Legal Areas Allowed

**Fathead minnows, threadfin shad and mosquitofish** are permitted on all waters of the counties of La Paz, Maricopa Pinal and Yuma. These baitfish may be used in all waters of Mohave county **except the Virgin River**. No waters of any other counties are open except: 1) the mainstream portions of the Gila and Salt rivers, and that portion of the Verde River below the Tuzigoot Bridge, including impounded reservoirs, 2) Tonto Creek from Gisela downstream, 3) those portions of Apache, Roosevelt, Pleasant and Horseshoe lakes lying outside of these counties, and 4) that portion of the San Francisco River in Greenlee County. **Notes:** Live baitfish may not be transported to the Verde River upstream from Horseshoe Dam and the Salt River above the Roosevelt Diversion Dam in Gila County. Threadfin shad are permitted for use if caught and used on site at Patagonia Lake in Santa Cruz County. Fathead Minnows are permitted for use as live bait **only** when caught and used on site at Riggs Flat Lake in Graham County.

*Fathead minnow*  
(most commonly used)

*Threadfin shad*

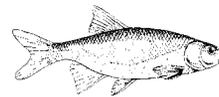

*Mosquitofish*

### Legal Areas Allowed

**Golden shiner and goldfish** are permitted on all waters of the counties of La Paz and Yuma. No waters of any other counties are open **except**: 1) Lake Mead, and 2) the Colorado River downstream from Hoover Dam to the Southern International Boundary with Mexico, including impounded reservoirs, and 3) Alamo Lake.

*Golden Shiner*

*Goldfish*

## Waterdogs

Waterdogs are NOT considered baitfish, however they have specific regulations governing their use in Arizona. For regulations on live waterdog legal areas, capture, possession, and transportation see R12-4-313.C.4 and R12-4-316.A & C.

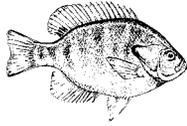

No live waterdogs or salamanders may be taken, used or possessed in that portion of Santa Cruz County lying east and south of State Highway 82, or that portion of Cochise County lying west of the San Pedro River and south of State Highway 82 (this includes Parker Canyon Lake).

Legal live baitfish can be obtained from licensed bait dealers and from wild capture for personal use only. For regulations on legal capture methods, possession and transport of live baitfish, see:

- Capturing baitfish and crayfish for bait (page 7 of this book)
- Lawful methods R12-4-313.A thru E
- Possession of live fish R12-4-315.A & B
- Possession and transportation of live baitfish R12-4-316.A & B
- Seasons for lawfully taking fish R12-4-317.A thru C

# Live Baitfish – Legal Species, Legal Areas and Regulations

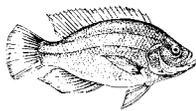

The following live baitfish may be collected and used **onsite only** in the identified legal areas. It is illegal to transport any of these live baitfish to or from these waters.

*Sunfishes (includes bluegill, redear sunfish, green sunfish, and hybrid sunfish)*

### Legal Areas Allowed

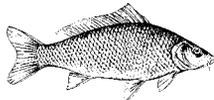

**Sunfishes** are permitted on all waters of the counties of La Paz and Yuma. No waters of any other counties are open *except*: 1) the Colorado River south of the Nevada-California boundary downstream to the Southern International Boundary with Mexico, including impounded reservoirs, 2) the Gila, Salt, and Verde rivers, including impounded reservoirs, 3) community waters in Maricopa County, 4) Lake Pleasant, 5) Alamo Lake, and 6) Patagonia Lake. **Notes:** Live baitfish may not be transported to the Verde River upstream from Horseshoe Dam and the Salt River above the Roosevelt Diversion Dam in Gila County.

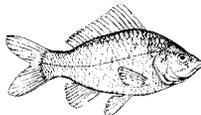

*Tilapia*

### Legal Areas Allowed

**Tilapia** are permitted on all waters of Yuma County. No waters of any other counties are open *except*: 1) waters in La Paz County located west of Highway 95 and south of Interstate 10, and 2) the Colorado River from the Palo Verde Diversion Dam downstream to the Southern International Boundary with Mexico, including impounded reservoirs.

*Carp*

*Goldfish*

### Legal Areas Allowed

**Carp and Goldfish** are permitted on all waters of the counties of La Paz and Yuma. No waters of any other counties are open *except*: 1) Lake Mead, 2) the Colorado River downstream from Hoover Dam to the Southern International Boundary with Mexico, including impounded reservoirs, 3) the Gila, Salt, and Verde rivers, including impounded reservoirs, 4) community waters in Maricopa County, 5) Lake Pleasant, and 6) Alamo Lake. **Notes:** Live baitfish may not be transported to the Verde River upstream from Horseshoe Dam and the Salt River above the Roosevelt Diversion Dam in Gila County.

*Gizzard shad*

### Legal Areas Allowed

**Gizzard shad** are permitted for use as live bait only from the following areas: 1) the Colorado River south of Separation Canyon downstream to the Southern International boundary with Mexico, including impounded reservoirs (e.g., Lake Mead, Lake Mohave and Lake Havasu) and directly connected backwaters (e.g., Topock Marsh and Mitty Lake), 2) the Gila and Salt Rivers, including impounded reservoirs (e.g., Roosevelt Lake and Apache Lake), 3) community waters in Maricopa County, and 4) Lake Pleasant.

*Red shiner*

### Legal Areas Allowed

**Red shiner** are permitted on all waters of the counties of La Paz, Maricopa, Pinal and Yuma. These baitfish may be used in all waters of Mohave County **except the Virgin River**. No waters of any other counties are open *except*: 1) the mainstream portions of the Gila and Salt rivers, and that portion of the Verde River below the Tuzigoot Bridge, including impounded reservoirs, 2) Tonto Creek from Gisela downstream, 3) those portions of Apache, Roosevelt, Pleasant and Horseshoe Lakes lying outside of these counties, and 4) that portion of the San Francisco River in Greenlee County.

# Special Regulations and Seasons – Fish: Commission Order 40

### Colorado River Special Use Privilege

Starting in 2014, the Colorado River Stamp – California, and Colorado River Stamp – Nevada will no longer be available. The privileges of these stamps are now bundled together and included in the Arizona General Fishing license and Combo Hunt/Fish licenses (youth, adult and short-term). These licensees may fish from a boat on any waters that form the mutual boundaries between Arizona and California, or Nevada; or when fishing from the California, or Nevada, shorelines of these waters. (see pages 7 and 52)

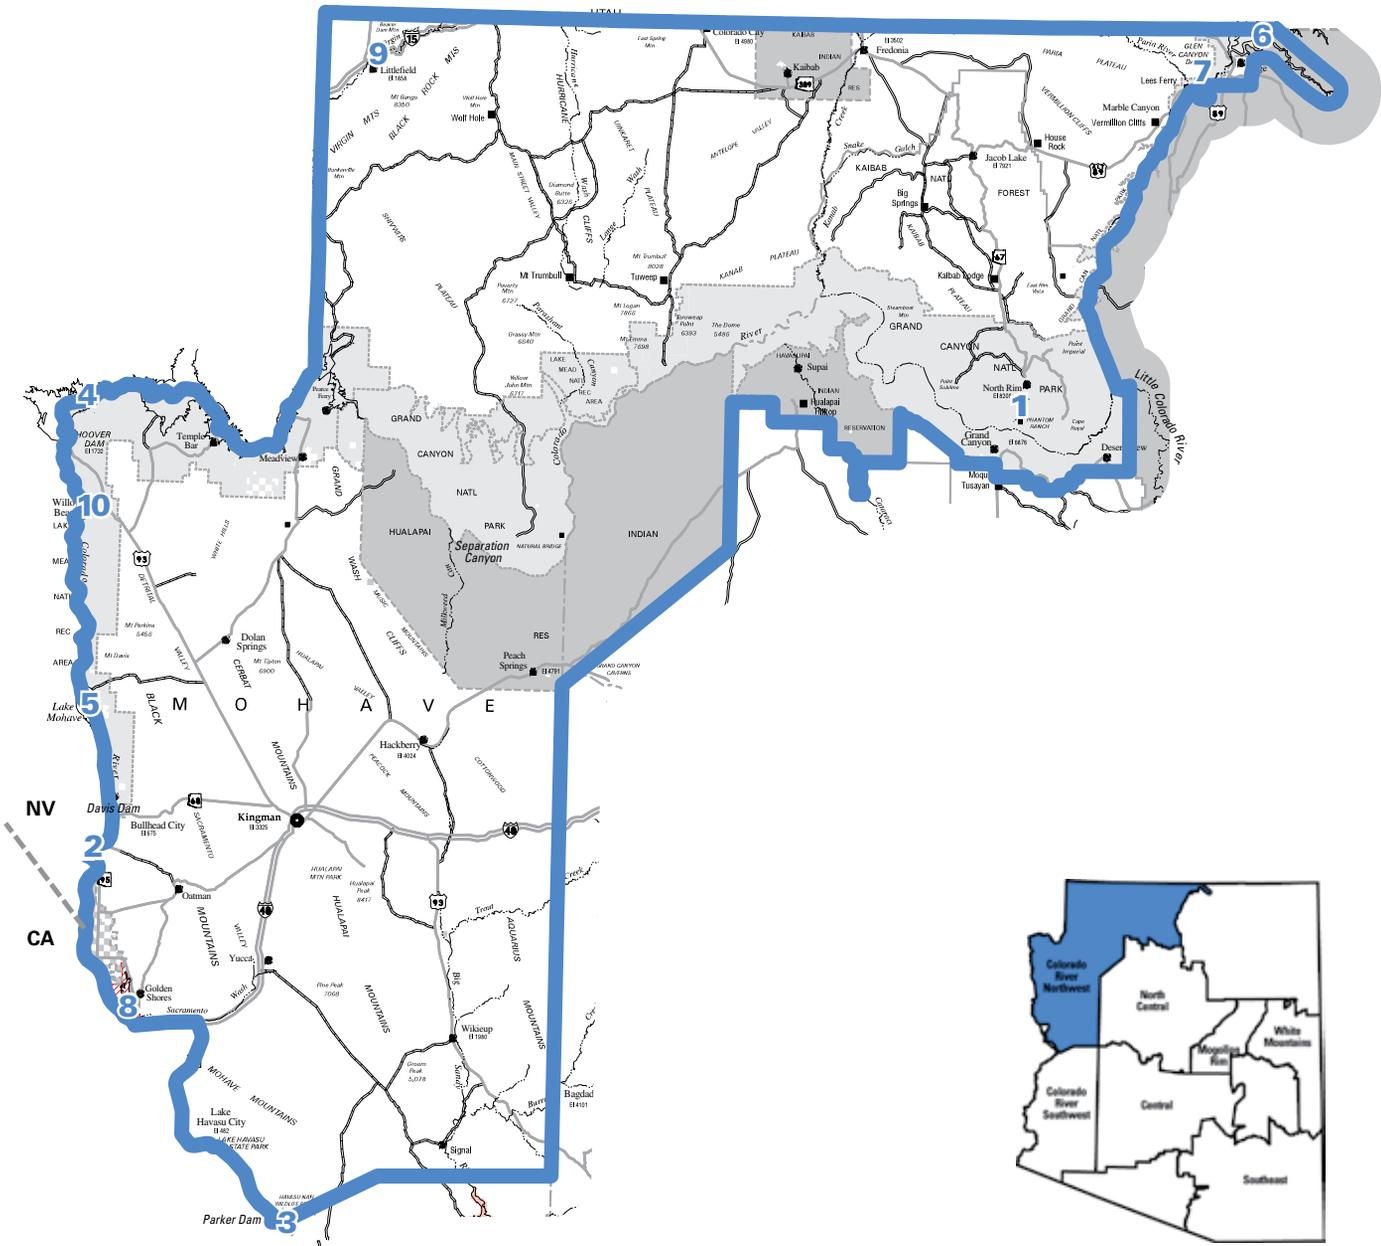

### Utah Lake Powell Stamp

A Utah Lake Powell stamp validates an Arizona resident fishing or combo hunt and fish licensee to fish in the Utah portions of Lake Powell. The \$8 Utah Lake Powell stamp is available only from Utah license dealers. Note: Arizona no longer offers or requires the \$3 AZ Lake Powell stamp for Utah licensed anglers fishing the Arizona portion of Lake Powell.

## Trout Family *(includes all species of trout, brook trout, and grayling)*

### Rainbow Trout

Description: Olive to bluish on the back, silvery sides, a pink band on the sides from head to tail. Many small black spots on back, sides, adipose and dorsal fin. Distinct radiating rows of black spots on tail fin. Generally, no spots on pectoral, pelvic and anal fins. Length: up to 28 inches. Weight: up to 15 pounds.

### Cutthroat Trout

Description: Body shape similar to rainbow trout. Back and sides are lightly spotted; Dorsal, adipose and tail fins are heavily spotted. Red or reddish-orange slash on throat. Length: up to 20 inches. Weight: up to 6 pounds.

### Grayling

Description: The dorsal fin is large, dark-gray, blotched with pale spots, with cross-rows of deep blue spots and edged with red or orange. The dorsal fin has 17 to 25 rays. The tail fin is forked. The body has scattered black spots on silver-gray, sometimes pink sides. Scales larger than for trout. Length: up to 14 inches. Weight: up to 1.5 pound.

### Brown Trout

Description: Olive-brown with yellowish sides. Some orange or red spots on the sides, spots often encircled with light yellow or white. Dark spots on back and sides. Tail fin usually unspotted or vaguely spotted. Adipose fin usually orange or reddish. Length: up to 30 inches. Weight: up to 20 pounds.

### Brook Trout

Description: Gray to olive-green on the back. Vermiculations or worm-like markings on the back and dorsal fin. Sides lighter in color with blue halos around pink or red spots. White edge on lower fins and lower tail. Length: up to 18 inches. Weight: up to 4 pounds.

### Tiger Trout

Description: Tiger Trout is a sterile hybrid that is the result of crossing a female brown trout with a male brook trout. Hybridization can occur naturally, however it is very rare. Stocked tiger trout are produced in a hatchery. Coloring, markings, and tail shape can vary but generally is a dark maze-like pattern all over a brownish, gray, or silver body. The belly varies from white to yellowish orange as does the pectoral, pelvic and anal fins. These fins also have white leading edges. The tail fin is square to slightly forked. Length: up to 25 inches. Weight: up to 5 pounds (up to 32 pounds in other states).

### Native Trout

#### Apache Trout

Description: The Apache is one of Arizona's two native trout species and is the Arizona state fish. Body color is yellowish-gold at the top of the head and the back is a dark olive. Dorsal, anal and pelvic fins are white tipped with dark, bold spots on dorsal and tail fin. Spotting on the body is sparse and irregular and may extend below the lateral line. Two small black spots on either side of pupil give appearance of black stripe through eye. Length: up to 20 inches. Weight: up to 5 pounds.

#### Gila Trout

Description: Gila trout have iridescent gold sides that blend to a darker shade of copper on the Opercles. Spots on the body of this trout are small and profuse, generally occurring above the lateral line and extending onto the head, dorsal fin and caudal fin. Dorsal, pelvic and anal fins have a white to yellowish tip that may extend along the leading edge of the pelvic fins. Parr marks are commonly retained by adults, although they may be faint or absent. Length: up to 20 inches. Weight: up to 5 pounds.

The following bodies of water identified under Special Regulations and Seasons (pages 12–25) have special fishing seasons (R12-4-317), daily bag and possession limits, length limits or closures that differ from General Statewide Regulations (pages 6–9) or Statewide Daily Bag and Possession Limits (page 6). Only exceptions to General Statewide Regulations and General Sport Fishing Seasons are shown for each area.

Description: Body is yellow-olive to brown on back with yellowish sides, and yellow to white belly. Slight to no mottling. Chin barbels are always light in color, either white or pale yellow. Anal fin is moderately long with a straight profile; Tail fin is rounded. Length: up to 16 inches. Weight: up to 3 pounds.

The following bodies of water identified under Special Regulations and Seasons (pages 12–25) have special fishing seasons (R12-4-317), daily bag and possession limits, length limits or closures that differ from General Statewide Regulations (pages 6–9) or Statewide Daily Bag and Possession Limits (page 6). Only exceptions to General Statewide Regulations and General Sport Fishing Seasons are shown for each area.

## CRAPPIE (INCLUDING BLACK AND WHITE)

### 10 CRAPPIE:

- Lake Powell

### 15 CRAPPIE:

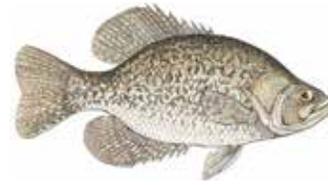

- Bartlett Lake
- Colorado River-Separation Canyon to Davis Dam, including Lake Mead and Lake Mohave
- Roosevelt Lake

### 25 CRAPPIE:

- Colorado River-California/Nevada border to the International Boundary, including Topock Marsh and Lake Havasu (in any combination with sunfish)

### Black Crappie

Description: Head and back heavily and irregularly spotted with black blotches on a silver-olive background; Tail, dorsal and anal fins are spotted. Seven or eight spines on dorsal fin. Body is compressed. Length: up to 15 inches. Weight: up to 4 pounds.

## Most Popular Lakes to Fish by Species

The following list of waters are only some of the more popular places where these fish can be found. Because water conditions change rapidly please contact Arizona Game and Fish when planning your fishing trip. For the latest fishing reports, visit the Department's website at [www.azgfd.gov](http://www.azgfd.gov).

**Bluegill (sunfish):** Canyon Lake, Goldwater Lake, Apache Lake, Francis Short Pond, Roper Lake, Saguaro Lake, Lake Pleasant, Arivaca Lake, Lake Powell, Bartlett Lake, and designated Community Fishing Program waters.

**Carp:** Lake Havasu, Lake Mohave, Lake Mead, Lake Powell, Lyman Lake, Roosevelt Lake, Bartlett Lake, Lake Pleasant, Tempe Town Lake, Saguaro Lake, Canyon Lake, and Apache Lake.

**Channel Catfish:** Canyon Lake, Apache Lake, Roosevelt Lake, Colorado River below Parker Dam, Saguaro Lake, Alamo Lake, Francis Short Pond, Kinnikinnik Lake, Bartlett Lake, Lake Powell, Fool Hollow Lake, Lake Havasu, Show Low Lake, Rainbow Lake, Verde River, Deadhorse State Park Lagoons, Topock Marsh, and designated Community Fishing Program waters.

**Crappie:** Roosevelt Lake, Bartlett Lake, Lake Pleasant, Dogtown Lake, Kaibab Lake, Alamo Lake, Santa Fe Lake, Whitehorse Lake, Cataract Lake.

**Flathead Catfish:** Saguaro Lake, Canyon Lake, Apache Lake, Lake Pleasant, Colorado River at Yuma, Topock Marsh, Lake Havasu, Roosevelt Lake, Bartlett Lake, the Verde River at Camp Verde and below Horseshoe Lake, the Gila River at Safford and Patagonia Lake.

**Grayling:** Lee Valley Lake, Perkins Tank.

**Largemouth Bass:** Alamo Lake, Apache Lake, Bartlett Lake, Roosevelt Lake, Canyon Lake, Saguaro Lake, Fool Hollow Lake, Dogtown Lake, Rainbow Lake, Lake Havasu, Lake Mead, Lake Powell, Lake

Pleasant, Mittry Lake, Lake Mohave, Tempe Town Lake and Topock Marsh.

**Northern Pike:** Upper Lake Mary, Long Lake, Fool Hollow Lake, and Rainbow Lake.

**Smallmouth Bass:** Apache Lake, Lake Powell, Roosevelt Lake, Fool Hollow Lake, Verde River, Lake Havasu, Lake Mead, Lake Mohave, Show Low Lake, Topock Gorge, and Colorado River at Parker Strip.

**Striped Bass:** Lake Havasu, Lake Mohave, Lake Mead, Lake Pleasant, and Lake Powell.

**Trout Waters:** Ashurst Lake, Bear Canyon, Becker Lake, Big Lake, Black Canyon Lake, Deadhorse State Park Lagoons, West and East Fork of the Black River, C.C. Cragin (Blue Ridge), Canyon Creek, Chevelon Canyon Lake, West Clear Creek, Crescent Lake, Frye Mesa Reservoir, Frye Creek, Goldwater Lake, J.D. Lake, Knoll Lake, Lee Valley Lake, Lees Ferry on the Colorado River, Colorado River below Davis Dam, Little Colorado River, Luna Lake, Lynx Lake, Nelson Reservoir, Oak Creek, Parker Canyon Lake, River Reservoir, Salt River below Saguaro Lake, Show Low Lake, Tonto Creek, Verde River from Clarkdale to Camp Verde, Woods Canyon Lake, White Horse Lake, Willow Beach, and Willow Springs Lake.

Winter-only trout stockings occur at: Canyon Lake, Cluff Pond, Parker Canyon Lake, Patagonia Lake, Pena Blanca Lake, Roper Lake, Saguaro Lake, and designated Community Fishing Program waters.

**Walleye:** Apache Lake, Show Low Lake, Upper Lake Mary, Fool Hollow Lake, Lyman Lake and Lake Powell.

**White Bass:** Lake Pleasant.

**Yellow Bass:** Saguaro Lake, Canyon Lake, Apache Lake, Roosevelt Lake, Tempe Town Lake, and Upper Lake Mary.

# Additional Fish Species

## Sunfish Family

### Bluegill

Description: The bluegill has blue coloring on the chin, a solid black opercle flap, a small mouth and a dark spot at the rear of the dorsal fin. The body is very compressed or flat and has from five to nine dark vertical bars on the sides. Length: up to 12 inches. Weight: up to 3 pounds.

### Redear Sunfish

Description: The "Red-ear" sunfish has a black opercle flap which is bordered with a reddish or orange color on the rear of the flap. Sides of head have olive-brown speckling. Body is compressed or flat with an olive-green cast, light speckling on sides. Pectoral fin long and pointed, usually extends far past eye when bent forward. Length: up to 14 inches. Weight: up to 5 pounds.

### Green Sunfish

Description: Large mouth with blue-green striations on the cheeks. Opercle flap is black with reddish or orange border. Body olive-green in color, dark vertical bars on sides. Pectoral fin short and rounded. Caudal fin and lower fin margins are white or yellowish with dusky spots at rear of dorsal and anal fins. Length: up to 10 inches. Weight: up to 1.5 pounds.

## Pike and Perch Family

### Walleye

Description: Back is yellow-olive with a brassy cast. Sides brassy-yellow with dark mottling. Belly is white. Dark spot at rear of spiny dorsal fin. Anal fin and lower lobe of tail fin are white. Eyes are opaque-silver in color. Length: up to 28 inches. Weight: up to 14 pounds.

### Northern Pike

Description: Back and sides, dusky olive-green with rows of light oval spots. Dorsal, anal and tail fin have round to oblong darkened spots. Dorsal fin located far back on an elongated body. Large canine-like teeth. Cheeks completely scaled, only upper half of the gill cover is scaled. Length: up to 45 inches. Weight: up to 30 pounds.

### Yellow Perch

Description: Back olive-green; sides brassy-yellow with 6 to 9 dark vertical bars; Belly is white. Anal fin, pectoral and pelvic fins are amber-orange tinted. Small teeth, not canine-like. Soft (rear) dorsal fin has 12 to 13 rays. Length: up to 12 inches. Weight: up to 1 pound.

## Minnow Family

### Common Carp

Description: Back olive-yellow with yellowish gold sides. Scales on back and upper sides are dark-edged, with a dark spot at the base. The dorsal fin has 17 to 22 rays. One saw-toothed spine at front of long dorsal and anal fin. Two barbels at each corner of the mouth on the upper jaw. Large adults have reddish-orange anal and tail fin. Length: up to 40 inches. Weight: up to 40 pounds.

### Roundtail Chub (native)

Description: Body is thick and streamlined, dark olive-gray above with silver sides. Mouth extends to front of eye. Dorsal fin and anal fin usually have 8 to 10 rays. Large forked tail fin. Breeding males develop red or orange coloration on lower half of cheek and bases of paired fins. Length: up to 18 inches. Weight: up to 3 pounds. **NEW: Catch-and-release only, statewide.**

### White Amur or grass carp

Similar to common carp only in general color (brassy yellow) and large scales. Notable differences include no barbels on bony mouth, no spine on a short dorsal fin or anal fin, more elongated body, less yellow in color, tail darker and more deeply forked. These fish are highly effective weed eaters and are stocked to control nuisance weeds and algae. Length: up to 42 inches. Weight: up to 40 pounds. **NEW: 1 fish, 30 inch minimum statewide.**

## Protected Native Fish:

See page 6 for a complete list of Commission designated protected fish. The four fish illustrated here are protected in Arizona. Should any of these be caught (most likely to occur in Colorado, Salt, Verde and Gila river systems), they must be immediately released unharmed.

---

### Colorado River Pikeminnow

Description: Body is long and slender, gray-green back with silver sides. Scales, very small. Long, conical shaped head, flattened between the eyes; large, horizontal mouth. Dorsal fin originates behind origin of pelvic fins. Dorsal and anal fins almost always with nine rays. Tail fin, large and deeply forked. Length: up to 36 inches. Weight: up to 20 pounds.

---

### Razorback Sucker

Description: Back, olive to brown-black, sides brown or pinkish; belly, white to yellow. Adults have sharp-edged keel or "humpback." Mouth facing downward; lower lip widely separated into two lobes by a deep groove. 13-16 dorsal rays; 7 anal rays. Length: up to 30 inches. Weight: up to 8 pounds.

---

### Humpback Chub

Description: Federally listed as Endangered. Body streamlined, dark olive-gray above, silver sides. Small head with snout overhanging mouth. High pronounced hump immediately behind head. This high-hump acts as a barrier to passing water forcing the body against the bottom where currents are slightly less, thus enabling these fish to move through rapids separating one eddying habitat from another. Deeply embedded scales. Slender caudal peduncle. Dorsal fin rays usually 9, anal fin rays 10 or more. Length: up to 18 inches. Weight: up to 2 pounds.

---

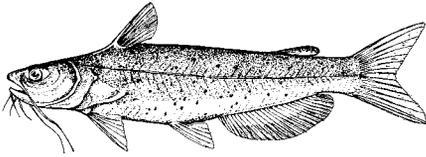

### Bonytail Chub

Description: Extremely rare. Federally listed as Endangered. Body highly streamlined, bluish, dusky color above, pale below. Head short, concave on top, arching smoothly into a subtle hump in adults. Dorsal fin rays almost always 10 or more; anal fin rays 9-11; very slender caudal peduncle. Length: up to 24 inches. Weight: up to 3 pounds.

# Basic Fishing Setups

Proper rigging of your hooks, weights and baits is a fundamental part of your fishing success. The following methods have proven to work well for trout, catfish and bluegill in lakes and ponds. Use lighter line and smaller hooks and weights for trout and bluegill. Some baits such as worms are effective for all fish, however most other baits are species specific.

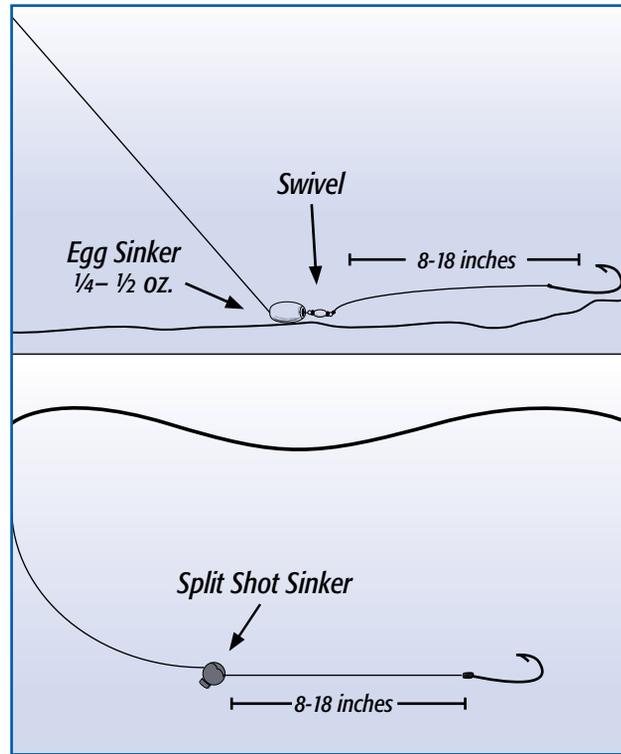

## Catfish

**Line:** 8 to 12 lb. test

**Hook Size:** 2 to 6 baitholder

**Bait:** Worms, stink baits, hotdogs, liver, shrimp

Catfish are best caught using a hook and sinker setup (fig. 1 and fig. 2). Catfish bite best in darker environments. Fish the deepest spots during the daytime and shallower areas after dark.

**Figure 1: Egg Sinker Setup**

**Figure 2: Split Shot Sinker setup**

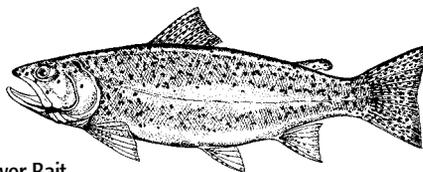

## Trout

**Line:** 2 to 6 lb. test

**Hook Size:** 8 to 12 baitholder

**Bait:** Worms, salmon eggs, Power Bait

When using prepared floating baits, the bottom fishing set up with an egg sinker is most effective (fig. 1). When fishing for trout, use the egg sinker set-up with 2- or 4-pound line tied below the swivel to the hook. Fishing with a bobber (fig. 3) can work well for trout when using non-floating baits such as worms or salmon eggs. In addition to the baits suggested for trout, small in-line spinners such as Panther Martins or Mepps, or spoons such as KastMasters or Super Dupers, can be effective.

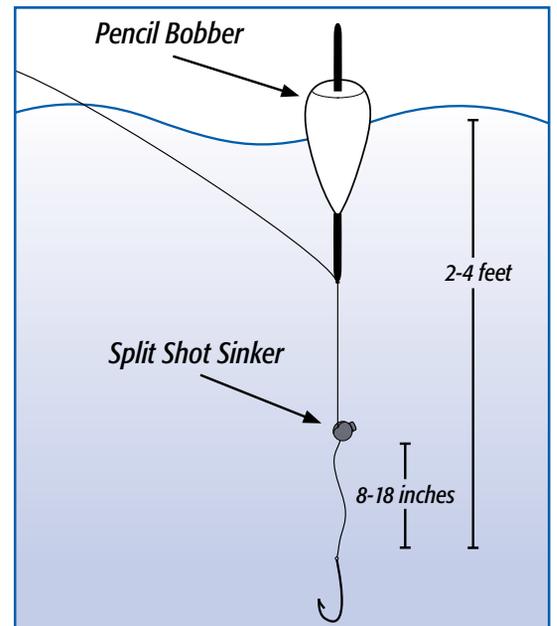

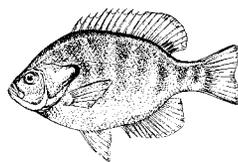

## Sunfish/Bluegill

**Line:** 2 to 6 lb. test

**Hook Size:** 8 to 12 baitholder

**Bait:** Worms, mealworms, corn

Sunfish or bluegill can be caught using the bobber setup (fig. 3). Use a small pencil or round bobber and fish along the lake edges in 4-8 feet of water. Use enough weight below the bobber so that it can be pulled underwater easily. Try to cover up the hook with the bait.

**Figure 3: Bobber Setup**

## Simple Tips for Family Fun

Remembering these five simple kid-style tips will help make your next family fishing trip an enjoyable and memorable experience

### 1. Keep it simple and safe.

Forget technique and tactics, kids just want to throw a line in the water and catch something. Choose simple equipment. A push button spincast reel and a 5-6 foot rod are best. Pack only the amount of tackle you need to keep everybody fishing (hooks, bobbers and weights). Fish with easy-to-use bait secured under a small bobber or on the bottom. Provide your youngster with his or her own small tackle kit. Spend your time teaching and coaching the kids, don't plan to do much fishing yourself.

### 2. Be prepared.

Have all the things you need to fish beforehand, so when you go fishing there are no delays. Get lots of worms. They are great universal bait and kids will love the dirt, slime and squirm of worms. Bring drinks and snacks in a small tote – being in the outdoors makes kids hungry. Bring a camera to capture the memories.

### 3. Make it fun.

Take kids to a place where they can catch a lot of fish such as bluegill. Help them identify their catch (see pages 26–33) and teach them how to properly handle the fish they catch. If fishing is slow, take a short break and walk the shoreline or play at the nearby playground. Relax and have patience. Seize opportunities to explore and discover, to make up games and to tell stories.

### 4. Involve the kids.

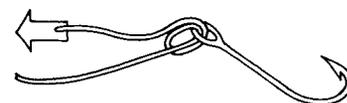

Whenever you can, let kids do things themselves – bait the hook, cast their own rods, reel in the fish and remove the fish from the hook. Give kids a role for the day – choosing where to fish, what to bring for snacks, how long to fish each spot, netting the fish or counting the birds.

### 5. Go where the fish are.

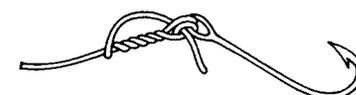

Nearby Community Fishing Program waters are excellent locations to catch all kinds of fish including bluegill, trout and catfish.

### Standard Fishing Knot

**Trilene Knot** (*a strong all-purpose knot*)

1. Run the ends of the line through the eye of the hook two times.

2. Loop the line around 4 or 5 times, then thread the loose end back between the two loops near the hook as shown.

3. Pull tight. Trim the loose end.

## Trout Challenge

### TROUT CHALLENGE

If you're looking for new places to catch trout this summer – or you'd like to catch a new trout species – we have a challenge for you. Rise to the Wild Trout Challenge and pursue naturally reproducing populations of native and nonnative trout, or chase the Arizona Trout Challenge, which includes hatchery-raised trout.

Arizona manages more than 100 waters statewide for trout. Both challenges offer the opportunity to fish for native Gila and Apache trout, found only in the Southwest. Listed as threatened under the Endangered Species Act, they can be fished in certain waters, thanks to conservation efforts here and in New Mexico.

Explore special fishing spots, learn about trout and enjoy Arizona's high country in 2016. Here's how to take the challenge:

1. FOR THE WILD TROUT CHALLENGE, catch all five species of wild trout in Arizona: Gila, Apache, brown, brook and rainbow trout.
2. FOR THE ARIZONA TROUT CHALLENGE, catch six of the eight species in the state: the five named above, plus cutthroat, tiger trout and grayling.
3. PHOTOGRAPH the fish you catch.
4. SUBMIT YOUR PHOTOS and an application identifying where and when those fish were caught to the Arizona Game and Fish Department.

**Are you up for the challenge? For the fine print and an application, visit [www.azgfd.gov/troutchallenge](http://www.azgfd.gov/troutchallenge).**

# Sport Fishing Education Program

**WHAT IS IT?** The Arizona Game and Fish Department has a state-wide Sport Fishing Education Program which teaches introductory fishing skills to people of all ages. Fishing clinics are led by Department Sport Fishing Education staff and program-certified instructors. All educational materials, rods and reels, bait, and terminal tackle are provided at no charge. Topics of instruction include: where and when to fish; selecting tackle and bait; casting and rigging techniques; fishing safety and ethics; care of your catch; and much more.

**SCHEDULE A FISHING PROGRAM FOR YOUR SCHOOL** The school group fishing program is offered during the school year and is composed of two parts: classroom instruction and field instruction. Classroom and field instructions are held on separate days. The classroom instruction is a one-hour presentation conducted at the school. The presentation covers topics such as native and sport fish of Arizona, fish biology and habitat requirements, basic fishing techniques, and much more. Educational handouts are available for all participants. The field instruction is a three- to four-hour, hands-on fishing event at an urban lake or nearby body of water of your choice. The Department provides all fishing equipment and all fishing license requirements are waived between the clinic hours.

**OPEN TO THE PUBLIC FISHING PROGRAMS** Individuals, families or groups are welcome to attend our "Open to the Public" fishing events conducted throughout the year. For a schedule of programs, visit our website at [www.azgfd.gov](http://www.azgfd.gov) and look under Education Programs, Sport Fishing Education, then to Schedule of Public Fishing Programs.

**ROD LOANER PROGRAM** The Department has fishing equipment available for loan to the public. Loaner sites include the Department's Phoenix headquarters office and six regional offices. Up to 50 rods and reels with tackle are available to borrow for up to a week and

reservations must be made 3 weeks in advance.

**BECOME A FISHING VOLUNTEER** The Department is looking for qualified individuals who want to volunteer with the Sport Fishing Education Program. You don't have to be an expert angler to help others learn basic fishing skills. Be an active participant in Arizona's fishing legacy.

For information on Sport Fishing Education programs, rod loaner programs or volunteer opportunities, call 623-236-7240 or visit our website at [www.azgfd.gov](http://www.azgfd.gov).

## Proper Catch-and-Release Methods

Fish are a valuable resource, and fishing for them is a fun and exciting recreational experience. By limiting your harvest, and practicing good catch-and-release techniques, you can help preserve a fishery and ensure that angling opportunity remains for another day. Currently, native trout fishing opportunities can only exist from anglers using these techniques.

### DO'S

**Appropriate hooks and quick hook sets:** Avoid letting fish swallow hooks by paying attention to your line and using an appropriate hook size and type. Single hooks are more easily removed than multi-point hooks.

**Hook type:** Barbless hooks are easier to remove and result in less injury to fish and shorter handling times during hook removal.

**Appropriate tackle:** The use of artificial flies and lures generally hook fish more superficially than those using live bait.

**Quick retrieve:** Exhaustion stress can be fatal, the longer you play a fish, the more stress it endures.

**Soft mesh nets:** The use of soft mesh nets, if nets are necessary, will help keep their protective slime on and will avoid entanglement.

**Wet hands and a gentle touch:** Handling fish with wet hands will help keep their protective slime from coming off.

**Keep the fish in the water as much as possible:** It is best to unhook the fish while it is still in the water and avoid holding the fish out of the water for pictures for more than a few seconds.

### DON'TS

**Avoid forcefully removing swallowed hooks:** If the hook is embedded down the throat, clip the line as close to the eye of the hook as possible and avoid attempting to remove the hook which may result in bleeding and injury. Hooks will dissolve over time. A fish hooked deeply has a better chance of survival if the line is cut than if its organs are torn in the unhooking process.

**Avoid touching the gills or eyes:** Holding a fish by the gills can be lethal; these are extremely sensitive and easily damaged organs.

**Avoid a firm grip:** Fish are slippery and wiggly. Make sure to support the fish properly while holding it. Instinct will lead an angler to tighten their grip on the fish, and potentially crush its internal organs with force.

# Violators Steal Your Fish – Help Us Catch Game Thieves

## Poaching is not fishing! Poachers are not fishermen!

Do the right thing. Report a violator. Your tip can make the difference in apprehending a fish thief.

### A 24/7 hotline to report fish and wildlife violations

Report a violation. Rewards of \$50-\$1,000 are offered for information leading to an arrest for fishing violations. Callers can remain confidential. Call **1-800-352-0700**.

Bag and possession limits provide everyone with a chance at a quality fishing experience and protect the fishery. Any angler that keeps or gives away more than their limit is breaking the law—they are thieves stealing fish from you and other responsible anglers.

Your help is needed to catch these violators. If you witness

an angler keeping more than the daily bag and possession limit, fishing with more than two poles at the same time, or not complying with other fishing rules, contact the Game Thief Hotline to report the violation.

Reported violations are prioritized based on the quality of the information provided. Because the Department has a limited number of Wildlife Officers statewide, it is not possible to have an immediate response to every call. That is why it is important that you be a good witness so that follow-up by an officer can be conducted.

### Be a good witness:

- Recognize what specific activities are violations.
- Do not put yourself in danger or confront the violator.
- Write down the date, time and specific park and lake location.
- Write down a description of the person(s) (physical and clothing).
- If possible, get the vehicle description and license plate number.
- Try to take pictures or video of the violation and violator.
- Call or go online to report the violation as soon as possible.

## Help Protect Our Fisheries

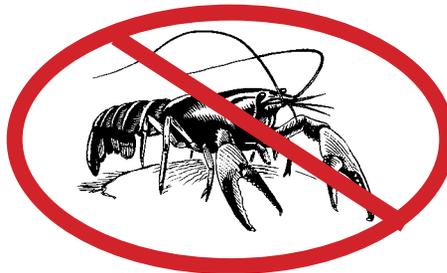

**Help reduce crayfish populations in our waters by removing crayfish at every opportunity. Crayfish are not native to Arizona, yet they have become established in many waters throughout the state. They endanger aquatic native species as well as sport fish by:**

- Preying on all life stages of fish, amphibians and invertebrates
- Aggressively competing for habitat and food
- Destroying productive habitat in our streams, ponds and lakes

Be careful with the use and disposal of crayfish.

- **It is unlawful to transport live crayfish (except for that part of southwestern Arizona south of I-10 and west of Highway 95).**

- If you intend to keep and eat crayfish, pack them in ice for transport. This will kill them while keeping them fresh until you arrive at your destination.
- By law, you may only use live crayfish as bait in the same body of water where they were caught.

- Do not throw unused bait crayfish, or bait of any kind, back into the water alive.

**With a valid fishing license (or for youth under age 10), an unlimited number of**

**crayfish may be caught by the following methods:**

- By hand or hand-held device, such as a fishing pole.
- Landing nets, dip nets or umbrella nets
- Crayfish nets or traps not exceeding 3 feet on a side or diameter
- Cast nets not exceeding a 4-foot radius
- Minnow traps not exceeding 1 foot in height and width, and 2 feet in length
- Seine nets not exceeding 10 feet in length and 4 feet in width
- Crayfish may be caught during the day or night.

See [www.azgfd.gov](http://www.azgfd.gov) for more information on crayfish capture methods and cooking recipes.

# Whirling Disease and Aquatic Invasive Species

## Preventing the Spread of Whirling Disease

Whirling disease is a parasitic infection that attacks juvenile trout, eventually killing them. The disease is transmitted primarily by infected fish or fish parts, or fishing equipment and wading gear. Whirling disease is not a human health concern. The Arizona Game and Fish Department continues to monitor and test for any presence of the disease.

You can help prevent the spread of whirling disease in the following ways:

- Do not transport live fish or fish parts from one body of water to another.
- Rinse all mud and debris from equipment and wading gear, and drain water from boats before leaving the infected water.
- Allow gear to dry thoroughly before next use.

For more information, visit the Initiative's website at [www.whirlingdisease.montanta.edu](http://www.whirlingdisease.montanta.edu).

*Check out [www.azgfd.gov/ais](http://www.azgfd.gov/ais) for more details on aquatic invasive species Director's Orders and boat decontamination protocols.*

## Arizona Game and Fish Department Aquatic Invasive Species (AIS) Decontamination Protocols

(A.R.S. 17-255 – Director's Order 3)

**DAY USERS:** Any watercraft, boats, vehicles, conveyances, or other equipment that have been in or on aquatic invasive species (AIS) listed waters for 5 days or less (**lakes Mead, Mohave, Havasu, Pleasant, Powell, Bartlett, Roosevelt, Canyon, Apache, Saguaro; and Lower Colorado River, Lees Ferry and the Lower Salt/Verde rivers**).

### Day-use Decontamination Protocols:

- Step 1 After removing from water and before transport from an AIS listed water, **clean**/remove any clinging material.
- Step 2 **Remove the plug** (keep it out) and **drain** the water.
- Step 3 **Dry** completely.

**LONG TERM USERS AND MOORED BOATS:** Any watercraft, boats, vehicles, equipment, or conveyances that have been in or on aquatic invasive species (AIS) listed waters for more than 5 days.

Mandatory decontamination protocols must include **minimum dry times**.

### Long-term Moored Boat Decontamination Protocols:

- Step 1 **Clean**/remove any clinging material.
- Step 2 **Remove the plug** (keep it out) and **drain** the water.
- Step 3 Physically remove all visible attached mussels.
- Step 4 Flush engine and cooling system with pressurized hot water.
- Step 5 Keep the boat out of the water and **dry (desiccation)** for a minimum of 18 consecutive days during the months of November through April or 7 consecutive days from May through October.
- Step 6 Prior to transport, completely fill out and file the required **Aquatic Invasive Species Boating Inspection Report (AISBIR)**. This form can be downloaded at [www.azgfd.gov/ais](http://www.azgfd.gov/ais).

Let's all "PLUG-IN" to make sure we all  
**"PULL THE PLUG-OUT"**

Remove your boat plug before you clean,  
drain and dry your watercraft ... Now it's the Law.

## Motor Restrictions:

### Powerboats restricted to a single electric motor on:

Ackre Lake	Lee Valley Lake
Bear Canyon Lake	McKellips Park Pond
Bunch Reservoir	Pratt Lake
Carnero Lake	Quigley Pond
Chaparral Park Lake	Redondo Lake
Cluff Ponds	Riggs Flat Lake
Coconino Reservoir	Roper Lake
Coors Lake	Santa Fe Lake
Dankworth Pond	Scott's Reservoir
Dogtown Reservoir	Sierra Blanca Lake
Fortuna Lake	Soldier Lake
Goldwater Lake	Stoneman Lake
Granite Basin Lake	Tunnel Reservoir
Horsethief Basin Lake	Whitehorse Lake
Hulsey Lake	Willow Valley Lake
J.D. Dam Lake	Woodland Lake
Knoll Lake	Woods Canyon Lake

### Powerboats restricted to a single electric motor or a single gasoline engine not exceeding 10 horsepower on:

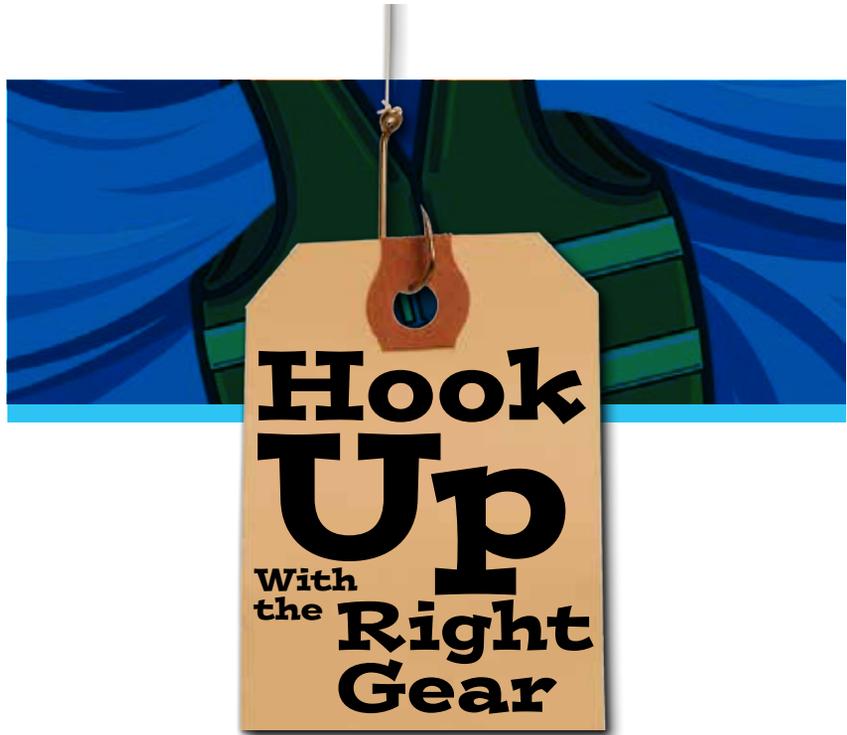

Arivaca Lake	Lower Lake Mary
Ashurst Lake	Luna Lake
Becker Lake	Lynx Lake
Big Lake	Marshall Lake
Black Canyon Lake	Mexican Hay Lake
C.C. Cragin (Blue Ridge)	Nelson Reservoir
Cataract Lake	Parker Canyon Lake
Chevelon Canyon Lake	Pena Blanca Lake
Concho Lake	Rainbow Lake
Crescent Lake	River Reservoir
Fool Hollow Lake	Show Low Lake
Kaibab Lake	Whipple Lake
Kinnikinick Lake	White Mountain Lake
Little Mormon Lake	Willow Springs Lake

### No watercraft allowed on:

Frye Mesa Reservoir  
Rose Canyon Lake

(AGFD R12-4-517 (A)(B)(C))

*This list was effective May 24, 2011*

- Boat registration
- Life jackets for all
- Throwable flotation aid
- Fire extinguisher (B-1)
- Horn, whistle or bell
- Navigation lights

**NOTES:** Records are based upon weight recorded on state-certified (legal for trade) scales and two witnesses to the weighing. Record fish must be available for inspection by Department personnel. New record fish must outweigh the standing record for the species by at least one full ounce. Fish taken from private waters that are closed to public access are not eligible for record status.

1. Based on total length only and rounded down to nearest inch. New entries must exceed existing entry by at least 1 inch.
2. Larger than current all-tackle world record listed by the International Game Fish Assn. and the National Fresh Water Fishing Hall of Fame.
3. World record for all tackle as verified by the National Fresh Water Fishing Hall of Fame.
4. Fort Apache Indian Reservation.
5. Species now protected, may not be taken.

## Requirements For Reporting

- Rule #1 Fish must be weighed on a certified fair trade scale in pounds. Scale location, register number and expiration date of scale certification must be recorded on entry form. Fish should be weighed whole and ungutted. The Department reserves the right to cut open any fish after weighing. (Rule #1 not required for catch-and-release entries).
- Rule #2 Length of the fish must be measured by a straight line from the tip of the snout to the tip of the compressed tail in inches.
- Rule #3 Fish must be caught in Arizona waters including the Colorado River where it borders Mexico, California and Nevada, and all of Lake Powell. Fish must be taken during the legal open season and by the legal method of take for the water where taken. Any illegal act associated with taking or handling of the fish will disqualify the record.
- Rule #4 Identification of species must be verified by a member of the Arizona Game and Fish Department. A photograph of the fish is required for the record file and for identification purposes.
- Rule #5 Angler must provide a valid Fishing License number. A photo copy of the current valid license, or verification by a member of the Arizona Game and Fish Department, is required.
- Rule #6 If the weights and measurements are not witnessed by the Department personnel, two witnesses must be present at the time the fish is weighed and measured (except catch-and-release entries).
- Rule #7 The Arizona Game and Fish Department reserves the right to further check identification and/or verification of witnesses and to refuse an application that is questionable.
- Rule #8 Fish taken from private waters that are closed to public access are not eligible for Record or Fish-of-the-Year.
- Rule #9 Eligible fish species for both State record and Fish-of-the-Year entries are those sportfish listed under the current State records. Illegally released fish species from pet and aquarium trades are not eligible for a State record or Fish-of-the-Year.
- Rule #10 In the event of any dispute regarding the authenticity of the fish record application, the fish must be made available for inspection by Arizona Game and Fish Department personnel. The determination made by Department personnel shall be conclusive.

## Catch-and-Release Record Program

The *Catch-and-Release State Record Program* requires only an accurate, total-length measurement (no weight) and a photograph. This record program is designed to minimize fish stress and maximize fish survival for those who wish to return fish to the water. It is based on the principle that the less you restrain and handle a fish after capture (live well transport, weight handling, re-release, etc.) the greater the likelihood of survival. Here is a highlight of the rules:

- Catch-and-Release state record fish are recognized by total length in inches only (longest measurement from the snout or nose to the tip of the compressed tail).

- Total length of the fish must be measured. A clear photo verifying the species and length must be included with the entry form, include a tape measure, ruler or other measuring device next to the fish in the photograph. Entries cannot be considered without a measuring device in the photograph.
- All fractions of length will be rounded down to the nearest inch.
- New catch-and-release record must exceed existing record by at least 1 inch.

Witnesses to the capture of Catch and Release fish entries are desirable, however, the program is honor-based and witnesses are not mandatory.

# Fish Weighing Scales at a Location Near You

The Arizona Game and Fish Department has placed 23 fish weighing scales at locations across the state. The scales are intended to ease the difficulty many anglers have had finding certified scales to weigh their record fish catches.

## Fish Consumption and Your Health

---

Fishing is a great way to spend time with friends and family. Eating fish is a contributor to your overall health and is an excellent source of protein and omega-3 fatty acids, which benefit heart health. **The American Heart Association recommends eating fish at least twice a week.**

However, some types of fish (store-bought or sport-caught) from some locations, may contain elevated levels of mercury or other environmental contaminants. The amount of these substances in the fish's flesh is generally highest in older, larger, predatory fish.

The benefits and risks of eating fish vary depending on a person's stage of life:

- Children and pregnant women are advised by the U.S. Food and Drug Administration (FDA) to avoid eating fish with high levels of mercury contamination.
- For middle-aged and older men and postmenopausal women, the benefits of fish consumption far outweigh the potential risks when the amount of fish eaten is within the recommendations established by the FDA and Environmental Protection Agency (see EPA website [www.epa.gov/waterscience/fish/publicinfo.html](http://www.epa.gov/waterscience/fish/publicinfo.html)).

Fish consumption guidelines are primarily designed to protect pregnant women, women of child bearing age, children and anglers who regularly consume fish in larger quantities over long periods of time. **This information is not intended to discourage you from eating fish but to guide you in making healthy choices.** Don't stop eating fish; just be careful of the fish and amounts you eat, and where they come from.

Working with the Arizona Department of Environmental Quality, the Arizona Game and Fish Department investigates areas where there may be concern for environmental contaminants in fish. In Arizona, mercury and pesticides have been found in several waters affecting various species. Based on these investigations, site-specific public advisories from the Arizona Department of Health Services and the Department of Environmental Quality have been developed, and anglers are advised to limit the consumption of certain kinds of fish from these locations.

***Please examine the Site Specific Fish Consumption Advisories table (at right).***

## Health and Environmental Information

---

### Lead and Fishing

Some kinds of fishing equipment such as sinkers and jigs are made from lead, which can be dangerous to the health of humans and wildlife. You can reduce your exposure to lead from fishing equipment by following a few simple guidelines:

- Never put lead in your mouth (use pliers to close sinkers around fishing line).
- Don't touch or eat food after handling lead fishing equipment without washing your hands first.
- Don't let small children handle lead fishing equipment.

Some birds have been poisoned by eating lead fishing equipment because they mistake it for food. Although there is little evidence that this occurs often in Arizona, you can help to assure that this does not happen. To prevent wildlife exposure to lead:

- Consider using alternatives to lead when you purchase fishing equipment (steel, bismuth, tungsten, resin, or glass weights).
- Make reasonable attempts to recover any lost equipment made from lead.
- Clean up any lead fishing tackle you find on shore or in the shallows.

## Arizona Fish Consumption Advisories

Trout produced by the Arizona Game and Fish Department and channel catfish that are stocked into Community Fishing waters have been tested by the U.S. Environmental Protection Agency for mercury. The results of the analysis indicate that these fish are safe for consumption. Also, the AZGFD in cooperation with the Arizona Department of Environmental Quality are in the process of identifying waters and fish species that do not have mercury problems. This list will soon be published on the AZGFD website and will be referred to as a "Green" category fishery.

## Site Specific Fish Consumption Advisories

Please check the AZGFD website for the latest information.

<b>RED</b>	ADEQ recommends that the public not consume this species.
<b>ORANGE</b>	ADEQ recommends that adults limit consumption of these fish to 2.4 ounces (uncooked weight) per week and children 12 years old and younger limit consumption to 2 ounces per month (uncooked weight).
<b>GREEN</b>	Waters with no advisories.

*Previously the lower Salt and Gila rivers from 59<sup>th</sup> Avenue down to and including Painted Rocks Reservoir, Painted Rocks Borrow Pit and the lower portion of the Hassayampa River were listed as contaminated with pesticides. That fish consumption advisory has been rescinded by the ADEQ as of Aug. 7, 2015.*

# Angler Access Restrictions

In addition to fishing area and season closures identified on pages 12-25, other fishing areas may be seasonally closed due to bald eagle breeding areas and/or Wildlife Area restrictions.

## BALD EAGLE CLOSURES

The Arizona Game and Fish Department, in cooperation with the Southwestern Bald Eagle Management Committee and land management agencies, closes sensitive bald eagle breeding areas along Arizona's rivers and lakes during five–eight months of the year. The closures prevent public entry and deter human activity during critical times of the breeding cycle. You can identify the closure areas by looking for No Entry signs on roads, trails and at boat ramps, and No Entry buoys on the water. Some closures may not be enacted or lifted early depending on when and where the eagles nest. For additional information on any closure, contact the Arizona Game and Fish Department, Terrestrial Branch, (623) 236-7506.

## **A.R.S. 17-314**

### **Civil liability for illegally taking or wounding wildlife; recovery of damages**

- A. The commission or any officer charged with enforcement of the laws relating to game and fish, if so directed by the commission, may bring a civil action in the name of the state against any person unlawfully taking, wounding or killing, or unlawfully in possession of, any of the following wildlife, or part thereof, and seek to recover the following minimum sums as damage:
  1. For each turkey or javelina \$500.00
  2. For each bear, mountain lion, antelope or deer, other than trophy \$1,500.00
  3. For each elk or eagle, other than trophy or endangered species \$2,500.00
  4. For each predatory, fur-bearing or nongame animal \$250.00
  5. For each small game or aquatic wildlife animal \$50.00
  6. For each trophy or endangered species animal \$8,000.00
- B. No verdict or judgment recovered by the state in such action shall be for less than the sum fixed in this section. The minimum sum that the commission may seek to recover as damages from a person pursuant to this section may be doubled for a second verdict or judgment and tripled for a third verdict or judgment. The action for damages may be joined with an action for possession, and recovery had for the possession as well as the damages.
- C. The pendency or determination of an action for damages or payment of a judgment, or the pendency or determination of a criminal prosecution for the same taking, wounding, killing or possession, is not a bar to the other, nor does either affect the right of seizure under any other provision of the laws relating to game and fish.
- D. All monies recovered pursuant to this section shall be placed in the wildlife theft prevention fund.

## **A.R.S. 17-331**

### **License or proof of purchase required; violation of child support order**

- A. Except as provided by this title, rules prescribed by the commission or commission order, a person shall not take any wildlife in this state without a valid license or a commission approved proof of purchase. The person shall carry the license or proof of purchase and produce it on request to any game ranger, wildlife manager or peace officer.
- B. A certificate of noncompliance with a child support order issued pursuant to section 25-518 invalidates any license or proof of purchase issued to the support obligor for taking wildlife in this state and prohibits the support obligor from applying for any additional licenses issued by an automated drawing system under this title.

# Arizona Revised Statutes, Title 17 Laws (Game and Fish)

- C. On receipt of a certificate of compliance with a child support order from the court pursuant to section 25-518 and without further action:
1. Any license or proof of purchase issued to the support obligor for taking wildlife that was previously invalidated by a certificate of non-compliance and that has not otherwise expired shall be reinstated.
  2. Any ineligibility to apply for any license issued by an automated drawing system shall be removed.

## A.R.S. 17-335

    - (a) Upland game birds, migratory game birds and wild turkey: breast.
    - (b) Deer, elk, pronghorn (antelope), bighorn sheep, bison (buffalo) and peccary (javelina): hind quarters, front quarters and loins.
    - (c) Game fish: fillets of the fish.
  8. A violation of section 17-309, subsection A, paragraph 1 involving any unlawful use of aircraft to take, assist in taking, harass, chase, drive, locate or assist in locating wildlife.
- B. On conviction or after adjudication as a delinquent juvenile and in addition to any other penalties prescribed by this title:
1. For a first conviction or a first adjudication as a delinquent juvenile, for unlawfully taking or wounding wildlife at any time or place, the commission, after a public hearing, may revoke, suspend or deny a person's privilege to take wildlife for a period of up to five years.
  2. For a second conviction or a second adjudication as a delinquent juvenile, for unlawfully taking or wounding wildlife at any time or place, the commission, after a public hearing, may revoke, suspend or deny a person's privilege to take wildlife for a period of up to ten years.
  3. For a third conviction or a third adjudication as a delinquent juvenile, for unlawfully taking or wounding wildlife at any time or place, the commission, after a public hearing, may revoke, suspend or deny a person's privilege to take wildlife permanently.
- C. A person who is assessed civil damages under section 17-314 shall not apply for or obtain a license during the pendency of an action for damages, while measures are pursued to collect damages or prior to the full payment of damages.
- D. On receiving a report from the licensing authority of a state that is a party to the wildlife violator compact, adopted under chapter 5 of this title, that a resident of this state has failed to comply with the terms of a wildlife citation, the commission, after a public hearing, may suspend any license issued under this title to take wildlife until the licensing authority furnishes satisfactory evidence of compliance with the terms of the wildlife citation.
- E. In carrying out this section the director shall notify the licensee, within one hundred eighty days after conviction, to appear and show cause why the license should not be revoked, suspended or denied. The

notice may be served personally or by certified mail sent to the address appearing on the license.

- F. The commission shall furnish to license dealers the names and addresses of persons whose licenses have been revoked or suspended, and the periods for which they have been denied the right to secure licenses.
- G. The commission may use the services of the office of administrative hearings to conduct hearings and to make recommendations to the commission pursuant to this section.
- H. Except for a person who takes or possesses wildlife while under permanent revocation, a person who takes wildlife in this state, or attempts to obtain a license to take wildlife, at a time when the person's privilege to do so is suspended, revoked or denied under this section is guilty of a class 1 misdemeanor.

## A.R.S. 17-341

### Violation; classification

- A. It is unlawful for a person to knowingly purchase, apply for, accept, obtain or use, by fraud or misrepresentation a license, permit, tag or stamp to take wildlife and a license or permit so obtained is void and of no effect from the date of issuance thereof.
- B. Any person who violates this section is guilty of a class 2 misdemeanor.

## A.R.S. 17-342

### Colorado river special use permit

- A. A person taking fish or amphibians for purposes other than for profit from or while on a boat or other floating device on all waters of the Colorado river south of the Nevada-Arizona boundary shall have in his possession a valid angling or fishing license issued by either the state of Arizona or the state of California. In addition to one of the above described licenses, such person shall have in his possession a valid California or Arizona-Colorado river special use permit, as provided by sections 17-343 and 17-344, which shall be obtained on payment of a fee to be fixed by the commission at not to exceed four dollars. Such a permit shall not be required to take fish or amphibians from canals, drains or ditches used to carry water from the Colorado river for irrigation or domestic purposes.
- B. A person having in his possession a valid Arizona fishing license must have a California-Colorado river special use permit to legally fish the waters described in subsection A of this section. A person having in his possession a valid California angling license must have an Arizona-Colorado river special use permit to legally fish the waters described in subsection A of this section. Such special use permit when accompanied by the proper license will allow the holder to fish in any portion of such waters and permit him to enter the waters from any point.
- C. Shore line fishing does not require a Colorado river special use permit as long as the fisherman remains on the shore of the state from which he holds a valid license and does not embark on the water.

### Definitions

In addition to the definitions provided under A.R.S. § 17-101, the following definitions apply to this Article unless otherwise specified:

“Administer” means to pursue, capture, or otherwise restrain wildlife in order to directly apply a drug to wildlife by injection, inhalation, ingestion or any other means.

“Artificial lures and flies” means man-made devices intended as visual attractants for fish and does not include living or dead organisms or edible parts of those organisms, natural or prepared food stuffs, artificial salmon eggs, artificial corn, or artificial marshmallows.

“Barbless hook” means any fishhook manufactured without barbs or on which the barbs have been completely closed or removed.

“Crayfish net” means a net that does not exceed 36 inches on a side or in diameter and is retrieved by means of a hand-held line.

“Dip net” means any net, excluding the handle, that is no greater than 3 feet in the greatest dimension, that is hand-held, non-motorized, and the motion of the net is caused by the physical effort of the individual.

“Drug” means any chemical substance, other than food or mineral supplements, which affects the structure or biological function of wildlife.

“Evidence of legality” means the wildlife is accompanied by the applicable license, tag, stamp, or permit required by law and is identifiable as the “legal wildlife” prescribed by Commission Order, which may include evidence of species, gender, antler or horn growth, maturity and size.

“Minnow trap” means a trap with dimensions that do not exceed 12 inches in depth, 12 inches in width and 24 inches in length.

“Nonprofit organization” means an organization that is recognized as nonprofit under Section 501(c) of the U.S. Internal Revenue Code.

“Person” means any individual, corporation, partnership, limited liability company, non-governmental organization or club, licensed animal shelter, government entity other than the Department, and any officer, employee, volunteer, member, or agent of a person.

### Possessing, Transporting, Importing, Exporting, and Selling Carcasses or Parts of Wildlife

A. An individual shall ensure that evidence of legality remains with the carcass or parts of a carcass of any wild mammal, bird, or reptile that the individual possesses, transports, or imports until arrival at the individual’s permanent abode, a commercial processing plant, or the place where the wildlife is to be consumed.

C. An individual who has lawfully taken wildlife that requires a valid tag when prescribed by the Commission may authorize its transportation or shipment by completing and signing the Transportation and Shipping Permit portion of the valid tag for that animal. A separate Transportation and Shipping Permit issued by the Department is necessary to transport or ship to another state or country any big game taken with a resident license. Under A.R.S. § 17-372(B), an individual may ship other lawfully taken wildlife by common carrier after obtaining a valid Transportation and Shipping Permit issued by the Department. The individual shall provide the following information on the permit form:

1. Number and description of the wildlife to be transported or shipped;
  2. Name, address, license number, and license class of the individual who took the wildlife;
  3. Tag number;
  4. Name and address of the individual receiving a portion of the carcass of the wildlife as authorized under subsection (D), if applicable;
  5. Address of destination where the wildlife is to be transported or shipped; and
  6. Name and address of transporter or shipper.
- M. Except for cervids, which are subject to requirements established under subsections (I), (J), and (K), an individual may import into this state the carcasses or parts of wildlife, including aquatic wildlife, lawfully taken in another state or country if transported and exported in accordance with the laws of the state or country of origin.
- N. An individual in possession of or transporting the carcass of any freshwater fish taken within this state shall ensure that the head, tail, or skin is attached so that the species can be identified, numbers counted, and any required length determined.
- O. An individual shall not transport live crayfish from the site where taken, except as permitted under R12-4-316.
- P. An individual in possession of a carp (*Cyprinus*

*carpio*), buffalofish (*Ictiobus* spp.), or crayfish (families Astacidae, Cambaridae, and Parastacidae) carcass taken under Commission Order may sell the carcass.

### Fishing Permits

A. The Department may issue a fishing permit to state, county, or municipal agencies or departments and to nonprofit organizations licensed by or contracted with the Department of Economic Security or Department of Health Services, whose primary purpose is to provide physical or mental rehabilitation or training for individuals with physical, developmental, or mental disabilities.

B. The permit:

1. Is valid for the two days specified on the permit;
  2. Authorizes up to 20 individuals with physical, developmental, or mental disabilities to fish without a fishing license upon any public waters except that fishing in the waters of the Colorado River is restricted to fishing from the Arizona shoreline only, unless the persons fishing under the authority of the permit also possess a valid Colorado River stamp from the adjacent state; and
  3. Does not exempt individuals fishing under the authority of the permit from compliance with other statutes, Commission Orders, and rules not contained in this Section.
- C. An applicant for a fishing permit shall submit a properly completed application to the Department. The application is furnished by the Department and is available from any Department office and online at [www.azgfd.gov](http://www.azgfd.gov).

1. The applicant shall provide all of the following information:
    - a. The name, address, and telephone number of the agency, department, or nonprofit organization requesting the permit;
    - b. The name, position title, and telephone number of the individual responsible for supervising the individuals fishing under the authority of the permit;
    - c. The total number of individuals who will be fishing under the authority of the permit;
    - d. The dates of the two days for which the permit will be valid; and
    - e. The location for which the permit will be valid.
  2. In addition to the information required under subsection (C)(1), nonprofit organizations shall also submit documentation that they are licensed by or have a contract with the Department of Economic Security or the Department of Health Services for the purpose of providing rehabilitation or treatment services to individuals or groups with physical, developmental, or mental disabilities.
- D. The Department shall issue or deny the fishing permit to an applicant within 30 calendar days of

# Arizona Game and Fish Commission Rules About Fishing

receiving an application.

- E. The fishing permit holder shall provide instruction on fish identification, fishing ethics, safety, and techniques to the individuals who will be fishing under authority of the permit. The Department shall provide the lesson plan for this instruction to the permit holder.
- F. Each individual fishing without a license under the authority of the fishing permit may take only one-half the regular bag limit established by Commission Order for any species, unless the regular bag limit is one, in which case the permit authorizes the regular limit.
- G. The permit holder shall submit a report to the Department not later than 30 days after the end of the authorized fishing dates. The report form is furnished by the Department and is available at any Department office. The permit holder shall report all of the following information on the form:
  - 1. The fishing permit number and the information contained in the permit;
  - 2. The total number of individuals who fished and total hours fished;
  - 3. The total number of fish caught, kept, and released, by species.
- H. The Department may deny future fishing permits to a permit holder who failed to submit the report until the permit holder complies with reporting requirements.

### Exemptions from Requirement to Possess an Arizona Fishing License or Hunting License While Taking Wildlife

In addition to the exemptions prescribed under A.R.S. § 17-335, R12-4-206(E), R12-4-207(E), and R12-4-209(E) and provided the person's fishing and hunting license privileges are not currently revoked by the Commission:

- 1. A fishing license is not required when a person is:
  - a. Fishing from artificial ponds, tanks, and lakes contained entirely on private lands that are not:
    - i. Open to the public, and
    - ii. Managed by the Department.
  - b. Taking terrestrial mollusks or crustaceans from private property.
  - c. Fishing in Arizona on any designated Saturday occurring during National Fishing and Boating Week, except in waters of the Colorado River forming the common boundaries between Arizona and California, Nevada, or Utah where fishing without a license is limited to the shoreline, unless the state with concurrent jurisdiction removes licensing requirements on the same day.
  - d. Participating in an introductory fishing education program sanctioned by the Department, during scheduled program hours, only. A sanctioned program shall have a Department employee, sport fishing contractor, or authorized volunteer instructor present during scheduled program hours. For the

purposes of this subsection, "authorized volunteer instructor" means a person who has successfully passed the Department's required background check and sport fishing education workshop.

# DID YOU KNOW?

## Your Arizona Game and Fish Department does not receive state tax dollars.

A major funding source for wildlife management starts with **YOU** through this cycle of success.

The result?  
Better hunting,  
fishing,  
boating and  
wildlife-oriented  
recreation.

Hunters, shooters,  
anglers and  
boaters purchase  
equipment and  
motor boat fuel.

Manufacturers  
pay excise tax  
on that equipment.

Arizona Game and Fish  
uses these funds,  
combined with other  
matching fund sources,  
to restore, protect and  
enhance wildlife, fish,  
habitat, shooting ranges  
and hunter education  
programs.

Grants to states.

U.S. Fish and Wildlife  
Service allocates excise-tax  
funds to state fish and  
wildlife agencies.
